

Beech Class – March 2023

92%

I cannot believe we are two thirds through the year already! I am having a wonderful time teaching your children; they are always focused and engaged, continually trying their best and encouraging others to reach their full potential. Mrs Weight, Mrs Mann, Miss Church and myself and continually saying to each other how lovely the class are!

Remember to read and practise times tables and spellings. This is HOMEWORK and the expectation is that the children do this every night.

Our PE days will continue on a Monday (netball) and Thursday (tennis).

We are lucky to be keeping Miss Church next term. She has been a positive and enthusiastic addition to our class team whilst she completes her teacher training and likes the class so much she asked to stay!

Important Dates

Friday afternoons - swimming

Monday 6th May – Bank Holiday

Wednesday 22nd May - Open Classroom

Looking Ahead

Next term our focus will be Geography, specifically looking at volcanoes and earthquakes – we will be doing our own WOW experiment to engage the children in the first week back. In Maths, we will start the term looking at angles and shape before moving onto decimals. We are continuing our class novel *Cosmin* by Frank Cottrell-Boyce, that is only if I can stop laughing. This humorous story tells the story of Liam, who is unusually tall for his age and has managed to get himself lost in space . . . will he make it home?

What does it mean to be Muslim in Britain today? is our learning question on *RE* next term. An interesting unit, with lots of golden threads throughout showing how similar different religions are.

In Science, we are learning about Animals including humans and how they develop physically from gestation through to old age.

Have an enjoyable Easter break – see you on Monday 15th April.
