Towards Employment 16

- Introduction to Working with Children
- Steps to Success
- Parents Towards Employment

## Creative

Creative courses are an opportunity for parents and carers to have fun making an exciting craft with their child. There are a variety of courses, including two-hour tasters and three-week courses.

### Bug Hunt (2 hours)

Families will strengthen relationships, build confidence and extend communication whilst exploring the fascinating world of bugs. From indoor explorations to outdoor adventures, this course will spark curiosity, promote empathy towards wildlife and deepen understanding of habitats. Child's age range (yrs) 3+.

### Elmer Workshop (2 hours)

Families will make a 'milk carton Elmer', look at why we are 'one of a kind' and participate in a scavenger hunt based on the David McKee Elmer books. Child's age range (yrs) 3-11.

### Green Warriors (2-6 hours)

Families find fun and creative ways with their children to help the environment by reducing, reusing and recycling. Child's age range (yrs) 3-5 Mini Green Warriors and 6-11 Little Green Warriors.

### Kite Making (2 hours)

Families will extend knowledge, work together, design and make kites and fly their kite, weather permitting. The kites can be based on topics related to a school project if the tutor is notified at time of booking the course. Child's age range (yrs) 3-11.

### Little Gardeners (2-6 hours)

Help families find different ways to engage with gardening, help their children become familiar with the concept of growing their own and explore a range of fun, creative children's activities to raise awareness of horticultural concerns. Child's age range (yrs) 3-11.

### Mask Making (2 hours)

Make masks together as a family. These can be based on topics related to a school project if the tutor is notified at time of booking the course. Child's age range (yrs) 3-11.

### Modelling (salt dough/clay/papier mache) (2 hours)

Discover the joy of modelling with this course designed to support interaction and provide quality time for fun learning experiences. Strengthen relationships, boost confidence and extend communication skills. From mastering the art of clay and dough creations to building stronger family and community connections. Child's age range (yrs) 3-11.

### Movers and Shakers (2 or 6 hours)

Learn about 'a rich sensory environment' and this fun way of learning, extending memory, knowledge and building on fine and gross motor skills. Make and use simple instruments in song and dance activities. Child's age range (yrs) 2-4.

### Outdoor Activities (2 hours)

For parents and carers to develop their interest in the outdoors. Workshops include; Making a Bird Feeder, Twig People and Leaf Printing. Families will participate in outdoor (weather permitting or indoor) activities to encourage empathy with wildlife and habitats. Child's age range (yrs) 3-11.

## Rocket Making (2 hours)

Join us for an exciting two-hour session where families will unleash their creativity by crafting paper planes and pop bottle rockets! Weather permitting, we'll launch our rockets into the sky for an exhilarating experience. Child's age range (yrs) 3-11.

## Seasonal Crafts (2 hours)

A creative and festive experience for the whole family. Work together to make cherished memories and beautiful crafts that celebrate the joy of togetherness. Families will extend their knowledge of crafts and create a variety of seasonal craft items. Great for Christmas, Diwali, Easter and many other cultural occasions. Child's age range (yrs) 3-11.

## Story and Craft (2 hours)

Strengthen family relationships through shared stories and crafting. Join us for a special reading experience where parents and carers read and discuss age-appropriate stories with their children. Create puppets and related crafts inspired by the tale to enhance enjoyment and promote creativity. Child's age range (yrs) 3-8.

## English, Maths and Language (ESOL)

Courses are for adults who wish to become more involved in their children's learning and enable them to help children acquire English, maths and language skills. Parents can improve their own skills in English, maths and language and improve their ability to help their children. Courses are for adults (mothers, fathers, carers, and guardians) who do not hold a current level 2 qualification in maths and English, Grade 4 GCSE (formerly Grade C) and above. All courses have an element of parent and child working together except those for adults only.

### Budding Writers (2-6 hours)

Develops imagination by engaging in writing an exciting story and provides quality time for families to share stories together. Encouraging parents and children to plan, discuss and write a story sharing their opinions and explaining their thoughts with the family creatively. Child's age range (yrs) 4-11.

### Chatter Matters (2-8 hours)

Understand the importance of talking to your baby, toddler or young child and learn about language development. Find out how you can help your child's speech by talking about everyday activities, playing games and having family fun together. Child's age range (yrs) 2-5.

### Family English to Exam (12 hours plus)

Learn about the English curriculum and how it is taught in primary schools. Brush up on your own spelling, punctuation and grammar and have the opportunity to work towards a nationally recognised qualification. Child's age range (yrs) 4-11 or adult only.

### Family Language - ESOL (12 hours plus)

For parents, carers and children whose first language is not English to practise speaking, listening, reading and writing. Improve your English to cope with everyday situations and find out how English is taught in schools in the UK. You can also work towards a recognised qualification. Child's age range (yrs) 4-11 or adult only.

## Family Maths to Exam (12 hours plus)

Learn how your children are taught maths at school. Brush up on your knowledge of mathematical terminology such as place value, estimate, different methods of calculation and problem solving. You can also work towards a nationally recognised qualification. Child's age range (yrs) 4-11 or adult only.

## Have Fun Reading (2 hours)

Parents and carers can discover the transformative power of reading with their child, explore library resources, discuss stories and express likes and dislikes. This course is designed to support interaction and provide quality time for families to read aloud together using expression, facial gestures, tone of voice and adopting different voices for different characters in the story. Have fun and learn together, strengthen relationships and promote communication and language development. Child's age range (yrs) 2-5.

## Keeping up with the Children Maths or English (8-10 hours)

Help parents and carers with learning about recent changes in the curriculum and how their child is taught at school. Familiarise adults with the main strategies used to teach calculation, mental maths, reading, writing, spelling and handwriting in primary schools. Parents and carers will feel more confident in supporting their children's learning, whilst providing an opportunity to brush up their own skills. It can be used as a route onto a longer English course with accreditation at the end. Age range - adult.

## Number Sacks (up to 12 hours)

This course will help parents and carers with their understanding of children's early mathematical development. Giving adults knowledge and skills to support their children's mathematical progression and learn with their children using engaging games and activities. Child's age range (yrs) 3-7.

## Our Family Scrapbook (up to 12 hours)

This course helps to develop and promote positive family relationships by structuring and encouraging family experiences and then allowing parents and carers to work with their children on a creative project to compile a family memory album and family tree. Resources will be provided. Child's age range (yrs) 3-11.

## Puppet Making (2 hours)

Families work together and encourage children's enjoyment of stories, by bringing them to life through creating puppets and props. Learn to use these effectively in storytelling. Child's age range (yrs) 3-11.

## Story Sacks (up to 12 hours)

Enable parents and carers to develop their child's imagination and early literacy development. Ignite an enjoyment of reading through creating a story sack together. Fill it and bring stories to life using props, toys, games and prompts. Learn new skills like sewing, art and craft, or reawaken old ones. Child's age range (yrs) 3-7.

## Supporting Your Child with Phonics (2 hours)

Parents and carers will discover effective strategies for supporting their child with phonics. This course offers practical guidance and resources to improve their child's literacy skills. From decoding words to improving reading fluency, learn valuable techniques to support phonics development. Age range - adult.

## First Aid

First Aid courses are an opportunity for parents and carers to learn essential life saving skills. These courses are delivered online and face to face as a one-off workshop or a 3 week course.

### Family First Aid (2 or 6 hours)

Join our essential course designed to equip parents and children with life-saving skills in managing incidents involving illness or injury. Learn how to provide care and support until medical help arrives. Suitable for adults only or adults and children aged 5-11, this course ensures readiness and confidence in handling emergency situations.

## Health and Wellbeing

Our health and wellbeing courses are interactive and an opportunity for families to focus on healthy eating, fitness and mental health.

### Cooking on a Budget (2-8 hours)

This course encourages families to try new ideas and eat healthily on a budget. This fun, practical course includes planning, preparing and cooking a variety of food to be tasted with children at the end of each session. Improve confidence in cooking and brush up on practical maths and English skills. Child's age range (yrs) 3-11.

### Family Sports - Multiskills (1.5-2 hours)

A fun and interactive physical course, where parents and children discuss healthy lifestyles and take part in movement skills using balls, jumping and running including relay races. Child's age range (yrs) 3-11.

### Happy Thoughts Jar / Worry Box / Sock Monster (2 hours)

For parents and carers to get creative together to make a Happy Thoughts Jar, Worry Box or Sock Monster. Take time together to discuss worries or happy thoughts and create a craft to support these conversations. Child's age range (yrs) 5-11.

### Navigating the Perimenopause & Menopause Workshop (2 hours)

This workshop is for any adult interested in learning more about how to support those navigating perimenopause/menopause. Explore strategies for managing perimenopause and menopause symptoms, discuss current research on ways to reduce symptoms and share practical strategies which could help manage brain fog, hot flashes, stress and many more. Age range - adult.

### Living with Perimenopause & Menopause Course (8 hours)

Parents and carers living with perimenopause and/or menopause can discuss and try out strategies for managing symptoms, discuss current research on menopause and find practical tips to help manage many of the common symptoms alongside busy family life. Age range - adult.

### Supporting Your Child's Anxiety (2 hours)

Increase your understanding of anxiety in children with the help of the tutor and other parents and carers in the group. Discuss experiences of anxiety and learn ways to help children manage their anxiety. Age range - adult.

## Parenting

Our Parenting courses are not about being a perfect parent - more about discovering that other people's experiences are the same. Parenting courses are not intended to be interventions and the tutor will not tell parents 'how it's done'. Rather, they are discussion-based with time to share experiences, ideas, concerns and possible solutions.

### Autism Awareness (8 hours)

This course will look at various principles of Autism and the different aspects that can be present whilst recognising an autistic child's strengths and abilities. Developing techniques to create a supportive environment, behaviour management and coping strategies. Age range - adult.

### Building Family Resilience - helping families through difficult times (8 hours)

Help adults recognise what resilience is, identify the resilience skills we already use and discuss strategies that can be used when faced with different situations. Age range - adult.

### Confident Parent, Confident Child (8 hours)

For parents and carers to assess their own level of confidence in various aspects of parenting and personal interactions and find out how this impacts on children. Take part in group discussions about family life, discover effective communication strategies and learn how to increase confidence to improve communication within the family. Age range - adult.

### Exploring Behaviour Strategies (2 hours)

This workshop enables parents and carers to build their confidence to manage certain situations, and provides the basis of how to manage behavioural issues and parents' own wellbeing. Raising children can be trying at times, it is a natural phase and being able to believe in oneself to implement good behaviour strategies will benefit parent and child alike. Age range - adult.

### Fathers Matter (2 hours)

Join our course designed for fathers and male carers to build confidence, learn effective communication skills and discover some new strategies to support their family's wellbeing. Age range - adult.

### Learning through Play (8 hours)

Recognise the importance of play in children's development and share ideas on how to create opportunities for play. Age range - adult.

### Let's Talk About Bullying (2 hours)

Enable parents and carers to understand what the difference is between bullying and social skills development, equipping them to effectively support their children. Through discussions, explore common signs of bullying, learn strategies to nurture and bolster their child's confidence and self-esteem and discover resources for further help and support. Age range - adult.

### Managing Children's Behaviour (8 hours)

Learn about why children behave in certain ways and how parents can positively influence their children's behaviour. Take part in discussions with other parents, try out new strategies at home and talk about how these worked. Improve family life and your relationship with your children. Age range - adult.

### Moving on from Difficult Family Relationships (12 hours)

This personal development programme is designed especially for adults who have been through difficult times. It helps adults move on from negative experiences, to build their self-esteem by sharing their experiences with others and to shape their future. Age range - adult.

### Restoring Family Relationships (2 hours)

Understand conflict and how best to resolve issues within the family with practical advice to better support the family with communication. Age range - adult.

### Stepping up into Primary (2 hours)

The opportunity to discuss with other parents the anxieties over your child starting a new school. How to best prepare your child and know what to expect. Age range - adult.

### Stepping up into Primary With Crafts (2 hours)

Have fun with your child in this fully interactive session, where parents and carers can get creative with craft together whilst learning how to get your child school ready. Child's age range (yrs) 3-5.

### Stepping up into Secondary (2 hours)

The opportunity to discuss with other parents the anxieties over your child starting a new school. How to best prepare your child and know what to expect. Age range - adult.

### Stepping Up into Secondary Extra (4 hours)

Enable parents and carers to reflect on their feelings about their child starting secondary school, what to expect and how to best prepare and support their child in the transition. This course also discusses some of the worries that parents and carers might have about internet safety, knife crime, sexual harassment and mental health. Age range - adult

### Supporting ADHD in the Home (8 hours)

Explore the characteristics of ADHD and the environments in which our children spend time with us. In this course, you will be able to share ideas and strategies for managing behaviour, recognise a child's strengths and abilities and celebrate the positives of ADHD. Age range - adult.

### The English Education System (2 hours)

Informing parents about the school system in England and how children are taught. For parents and carers who feel they don't know enough about schools and education in England. The tutor will help find the answer to questions and will give information about how school is set up, whatever their child's age or needs. Age range - adult.

### Understanding your Teenager (8 hours)

Understand what it is like being a teenager and find out how the teenage brain develops. Participate in discussions about family life with other parents. Improve communication with your teenager. Age range - adult.

### Who's Pulling the Strings (10 hours)

Support and guidance for families where the balance in the home has become inappropriate and is causing severe behaviour issues and concerns. Parents and carers will try new strategies to re-establish boundaries, respect and a balanced home environment. Age range - adult.

## Science, Technology, Engineering and Maths (STEM)

These fun courses offer families the chance to get creative whilst learning about how things work, introductory chemistry and coding.

### Ready Steady Code (2 hours)

Get ready for an exciting coding adventure! Join us in building mazes and programming the robot mouse to race towards the cheese. It's time to build your knowledge of coding skills and see who reaches the cheese first! Perfect for families with children aged 5-11 years.

### Builders and Boffins (2-6 hours)

Families will extend their knowledge of STEM (Science, Technology, Engineering & Maths) through fun and creative activities. Gain confidence in planning and creating a variety of homemade toys, experimenting with water or conducting investigations in sound. Child's age range (yrs) 3-5 Mini Builders and Boffins, 6-11 Little Builders and Boffins.

### Chemistories (2-6 hours)

Join us for an interactive opportunity for fun science! Parents and carers will engage in early chemistry activities alongside their children, using storytelling techniques to explore fascinating concepts. Delve into the chemistry of colour changes, learn about mixing liquids and investigate the wonders of the water cycle together. Child's age range (yrs) 4-7.

## Towards Employment

Recognise and build on your skills to enter or return to the workplace.

### Introduction to Working with Children (10 hours)

This course is designed to give adults the opportunity to discuss and find out about a range of different careers that involve working with children. Identify the skills needed to work with children, increase knowledge on important topics like child protection, literacy, numeracy, phonics, safeguarding and managing children's behaviour and develop a career in working with children. There may be an opportunity to include a workshop with the National Careers Service at the end of the course. Age range - adult.

### Parents Towards Employment (8 hours)

Look at how parents may combine employment with family responsibilities. Parents and carers consider how to make the most of their skills and learn more about looking and applying for employment. There may be an opportunity to include a workshop with the National Careers Service at the end of the course. Age range - adult.

### Steps to Success (2 hours)

This workshop provides open discussion and learning on how to effectively use the resources provided on the National Careers Service website to achieve professional goals. Develop essential skills such as creating CVs that stand out, mastering interview techniques and identify valuable training opportunities to enhance career prospects. Age range - adult.

## What parents say about us...

*"Engaging in Family Learning courses has boosted my confidence and broadened my perspective. These courses have not only equipped me with new parenting knowledge but also provided a supportive environment. As a new parent, the courses have been invaluable in helping me to support my family and open up to other parents. My Family Learning tutor's approach has made my learning journey feel personalised and empowering, and she has helped me feel more confident about my future."*

*"I have learnt with Family Learning both online and also at a children's centre. Learning English has enabled me to be more independent in my daily life. Before attending the course, I wasn't very confident and I didn't have any friends. The course enabled me to make many friends and feel part of a group. I passed my ESOL exams and now I can work. The best thing has been increasing my confidence and I am now also able to help my daughters with their homework."*

## What our customers say about us...

*"We are incredibly grateful for the Autism Awareness course delivered by Family Learning at our school. This invaluable session fostered connectedness and confidence among our families, offering inclusivity and empowerment. The tutor demonstrated remarkable skill in ensuring every participant felt heard and validated, creating a safe and trusting environment. Thank you for this meaningful opportunity."*  
- **Angeline, Castle Hill Primary School**

*"I just wanted to share how fantastic the tutor from Family Learning was. The First Aid course was incredibly well organised and engaging for families. It was a lovely session, and everyone really enjoyed it."*  
- **Lisa, Buckland Children's Centre**

*"The Happy Thoughts Jar session was captivating! Both children and parents engaged enthusiastically and thoroughly enjoyed every moment. The tutor was AMAZING! This was a very valuable experience, and we look forward to more Family Learning in school again."* - **Nikki, Herne Bay Infant School**
